2000 Analytical Review DWCCA-6325-PJL

Dear Mr. Nero:

The Public Service Commission staff is in the process of completing an analytical review of your utility's 2000 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that this review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

As directed in the head notes of the Balance Sheet End-of-Year Account Balances schedule on page F-18, please provide a more detailed description of the \$531,919 reported in Account 145 as well as the \$25,688 in Account 233 and follow this procedure in the future. Please also note that anytime there is not enough room for the explanation on the Particulars line, a schedule footnote should be added to provide further room for explanation.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient for you to do so. My e-mail address is leegep@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

WATER OPERATING SECTION FOOTNOTES

Water Operation & Maintenance Expenses (Page W-05)

Acct. 640 - Supplies and Expense - This account increased with additions being made during the year.

Acct. 650 - Repairs of Water Plant - This account decreased since the system is so new it requires less repair work.

Acct. 682 - Outside Services - This account decreased due to less testing and special work required.

Property Tax Equivalent (Water) (Page W-07)

The property tax equivalent was not included in the initial rate determination, nor will it be charged. A motion to reduce to tax equivalent of the Wautoma Public Water Utility down to zero as allowed by S.S. 66.069 (1)(c) WI Stats. was approved in April of 1998.

Water Utility Plant in Service (Page W-08)

Acct. 343 - Transmission and Distribution Mains - The additions in this account were in connection with a TIF District project.

Acct. 345 - Services - Same as account 343 above.

Water Mains (Page W-15)

Adjustments: Annexation of land in township caused water main to transfer from outside municipality to inside municipality.

The mains added are being financed by notes payable and charged to the customers. When the property is purchased the owner will have the assessment charges added to their bill.

Water Services (Page W-16)

The services added in 2000 were financed by charging the customers.

Meters (Page W-17)

The public water system was constructed within the last few years. Because the water meters are so new and were tested when recently put in operation few meters were tested in 2000.

Hydrants and Distribution System Valves (Page W-18)

Annexation of land in the township caused some hydrants to transfer from outside to inside the municipality.

All distribution valves were tested in the prior year.
